Orange Jello

Oh my God wait a minute
Orange Jello?
ORANGE JELLO??
Are you serious!
This is a real list
I'm writing from!
Is this where that came
from? That old racist
joke that's been debunked
on Snopes and the rest
since forever?
That funny rumor that
everybody knows is an
offensive falsehood?

Was it real?

Is it FUCKING real?!

We've gotta tell everybody
about this. This is
Unusual Names
Newbell Puckett 1920
I'm reading on the
Cleveland Library website.
I guess this work was
later collected in some
form in
Black Names in America
Murray Heller 1975
and today or anytime
the last thing I expected
to find was confirmation (?)
of Orange Jello!

I am glabberfastened.

You know the story, right? It goes there were twins, named Orangelo and Lemongelo or whatever spelling, with the stress on the second syllable. That's it. That's the whole story, and it's supposed to be a racist fable. I don't quite get that, because the mother in the story is obviously in on the joke. But the meme spread like boiling butter, hopefully starting around 1975! If so, we've undebunked a famous claim.

Okay, let's see if the sister is there. Page 17:

Wow. It is close. It's so near, the twinning was inevitable. Page 23:

I hope some professor of nominology - sorry, onomastics I guess - says this counts as confirmation. Do we have to do something else? It feels like a big win for the dusty manuscript peruser. Jeez, I hope it's not a win for the racist tale-tellers, though. Don't you dare gloat with me, racists.

So, scholars, if you want to cite this work, do it like this: **Orange Jello?! Shocking Onomastica Funny Names And Fuck Nazis Stern, Morgan Ladyfinger Press 2025**
